ITALY IN SPACE

FROM THE SAN MARCO PROJECT TO THE PROGRAMS OF TODAY

*Origins, the present and the
future of Italian space activities*

The Science Counselor **Prof. Paolo Gaudenzi**, with the help of leading Italian experts, connected remotely, will present to the audience the recent Italian progress in launchers, Earth observation from space and human flight.

The event will showcase pictures on the "Italian Spaceway" with an illustration of space programs in the main fields of research and application.
