PRESENTATION OF MARIA TRIPODI

With pleasure, I present the Eduitalia Guide "Study in Italy" 2026. Since 2007, this Guide has been offering prospective international students an overview of many of Italy's educational opportunities, with a focus on Italian language schools. With its network of partner institutions, the Eduitalia Guide has become a go-to resource for overseas students looking to learn about our language and culture.

Every year, tens of thousands of foreign students opt to study in Italy because of our excellent educational opportunities and highly-regarded culture. For everyone who wants to study our language and culture in Italy, the Eduitalia Guide is a valuable tool that makes navigating the various possibilities easier.

The Ministry of Foreign Affairs and International Cooperation works with conviction to promote Italian culture and language abroad through its diplomatic and consular network, Italian Cultural Institutes, and Italian Schools overseas. Because we strongly believe that international education is essential to fostering international understanding and collaboration and because we are aware of the value of studying in Italy for foreign students, we also support and encourage international student mobility. The number of international students coming to Italy has greatly increased over the years, and our country is as ready as ever to welcome them.

The Ministry of Foreign Affairs and International Cooperation has long benefited from Eduitalia's partnership in our efforts to promote the Italian language abroad and attract to Italy students interested in studying our language. I have no doubt that Eduitalia will continue to play a significant role in assisting us in realizing these shared objectives.

I sincerely hope you will choose Italy for your education and wish you the best of luck for the next academic year.

PRESENTATION OF MARCO PERONACI

AMBASSADOR OF ITALY
TO THE UNITED STATES

Dear students,

It is a great pleasure to introduce, for the first time since my recent appointment as Ambassador of Italy in the United States, the edition 2026 of the Eduitalia Guide – Study in Italy that has been, for 13 editions now, a well-established resource that supports and assists hundreds of students who wish to pursue an academic and cultural experience in Italy.

This guide showcases a wide array of study opportunities across Italy's most extraordinary cities, offering students the chance to deepen their knowledge while discovering an unmatched artistic heritage, a vibrant cultural life and a unique way of living.

We are proud to know that Italy continues to be the number-one study destination for U.S. students.

According to the latest Open Doors Report published by the Institute of International Education with the support of the U.S. Department of State, Italy is confirmed, for the fourth consecutive year, as the number-one destination chosen by American students studying abroad.

In the 2023/2024 academic year, 45,067 U.S. students – equal to 15.1% of all Americans studying overseas – chose Italy, marking a 7.7% increase over last year and placing our country ahead of Spain and the United Kingdom.

This growing presence, expected to rise further according to Eduitalia's projections, is the result of long-term promotional work supported by the Ministry of Foreign Affairs and International Cooperation and the Italian Diplomatic and Consular network in the United States.

In this context, the cooperation between the Embassy of Italy, Eduitalia, and the network of Italian Consulates in the United States continues to strengthen the promotion of Italian language, culture and higher education, and to support students in accessing study opportunities in Italy.

Last October we also celebrated the 13th edition of the Eduitalia Award Ceremony, which offers scholarships to outstanding AP Italian students from across the United States. For many, this will be their first time in Italy; for all, it will represent a transformative personal, academic and cultural experience. Studying in Italy is more than a learning choice: it is an opportunity for personal growth, discovery and connection.

I invite you to explore this guide and to embark on a unique journey of education, culture and enriching encounters.

Marco Peronaci

* As far as Italian language schools are concerned, you will see on the following pages that there are numerous schools with the inscription Member of Asils.

ASILS (Association of Schools of Italian as a Second Language) groups since 1991 private institutions offering Italian language and culture courses with a quality standard certified by the new UNI11863:2022 standard. ASILS is present in 12 Italian regions and welcomes each year about 30,000 foreign students in their schools. It has been working for years to achieve cooperation with Italian and foreign institutions and with all participants of the "Italian System" aiming at a constructive dialogue to overcome all bureaucratic criticalities regarding the reception of students. Being part of a national system of high guarantee is a decisive factor in the qualification of Italian language and culture in the world.

WHO WE ARE

Italy is situated in the heart of the Mediterranean Sea, enjoying a mild climate with a multitude of landscapes. Two mountain ranges, charming lakes and many miles of sunny beaches principally characterize the country.

Italy is a nation that enchants you with each Region containing individual charm and naturalistic wonders, especially for its considerable historical, cultural and artistic heritage.

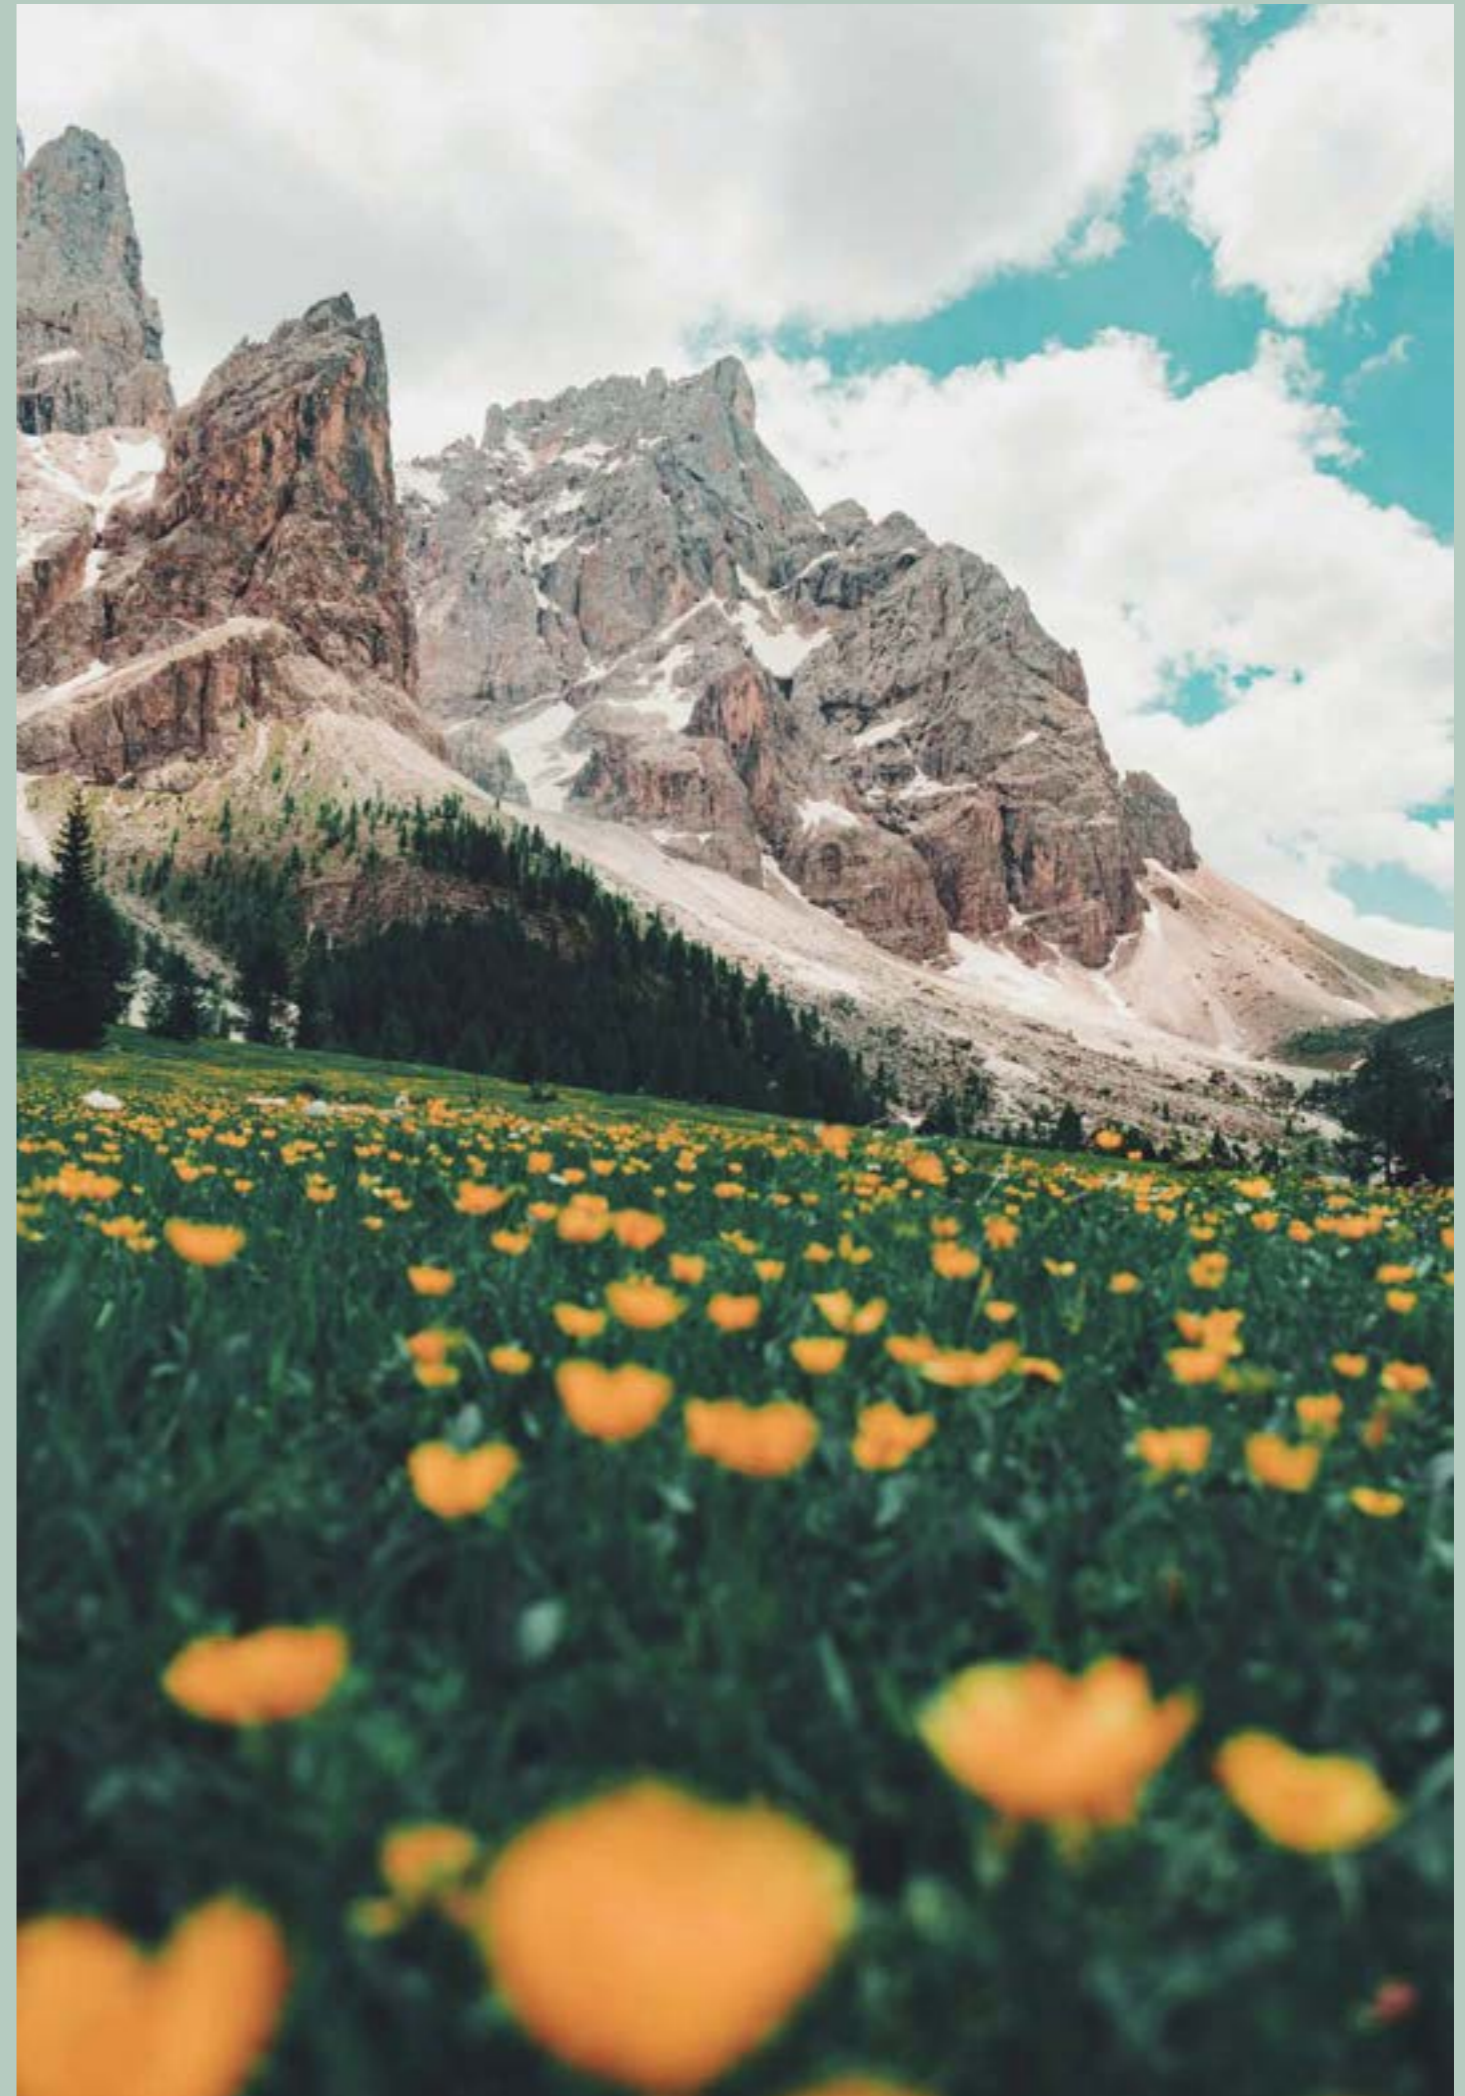

It is also a country that prides itself on a culture of hospitality and a vast culinary tradition. Italy can justifiably be considered an open art gallery with its many testimonies to high quality art. UNESCO affirms that over half of the historical and artistic heritage in the world is found in Italy.

Everyone who has had the possibility to study and live abroad, even those coming for a short period of time, describes Italy as a paradise for lovers of art, culture and savoir-vivre.

No other place in the world can boast the cultural and artistic treasures like Italy. From the largest city to the smallest village, one can immerse oneself in the deepest roots of Italian culture.

Making Fashion since 1934

ISTITUTO SECOLI

NOVARA

The heart of fashion beats in the workshop.

In Novara, Istituto Secoli trains one of the most valuable and sought-after figures in the fashion industry: the prototypist, the technical artisan who transforms the designer's idea and the patternmaker's project into a real garment, crafted down to the last detail. Without the prototypist, fashion would remain just an idea.

The Novara campus was established in 2022 with the support and collaboration of some of the most important Made in Italy maisons — Canali, Gucci, Herno, Loro Piana, Versace, Zamasport, and ZEGNA — who are active partners of the school and contribute directly to teaching through lectures, workshops, and hands-on training activities. The shared goal is to create a hub where school and industry work side by side to train the professionals who bring products to life.

Course Offered:

- Intensive one-year courses in Fashion Prototyping
- An experiential path of high specialization that combines technical training with professional practice. At the core of the program is the art of sewing, a fundamental skill for prototypists, which allows students to fully understand the structure of a garment and perfect every step of the production process. Students learn all stages of creation

— from patternmaking to cutting, assembly, moulage, and quality control — through a hands-on, workshop-based approach.

The experience is complemented by company visits and a six-month internship with one of the partner brands, offering a unique opportunity to engage directly with the professional world and Italian manufacturing excellence.

At Istituto Secoli in Novara, fashion is built with hands, ingenuity, and precision—where talent takes shape.

Since 2005, the Italian language courses have been hosted in the former Closter of Santa Maria Maggiore, in the old town. Trieste is a charming town between mountain and sea, near the border with Slovenia.

Istituto Venezia is the ideal choice for those who are planning to take an Intensive Italian language course in Italy. We offer several different options to meet every possible request. Every day the school organizes activities for the students. The quality of teaching and of the educational materials is very important for us. For this reason the members of our team have all attended special education seminars and teacher training programmes, especially the Itals Master Programme (Italian as second language) at Ca' Foscari University and have experienced teaching Italian as a foreign language.

Your teachers are always ready to help you, encourage you and comply with your learning method. Teachers work as a team and arrange daily meetings in order to organize the different teaching departments; they regularly update their teaching material and discuss and compare different techniques.

PASSEPARTOUT LINGUA ITALIANA

MILAN

Passepartout was established in 1996 by owners and principal teachers, Marzia Trotta and Roberto Cittadini. The school is located in Milan, Italy. We are a boutique school able to offer a personalized and friendly, yet professional service. Our small class sizes (never more than 8 people) mean that each student gets individual attention in every class.

Thanks to the small size of the groups, all students can understand and speak Italian during the classes, using the Italian language to communicate from the very first class. Many years' experience in working with high profile clients and students demanding fast and measurable results has led to the creation of our published textbooks and our unique teaching method.

Over the years we have written and published our own books, which are still used in the courses. We have also developed a self-learning language platform called "Italian distance learning", which is currently available on the Internet <https://www.italiandistancelearning.it/>

All our teachers are both highly qualified and have undergone rigorous training in our method, offering excellence in Italian language training.

Since 1996 we have focused on our students' goals: communicating in the Italian language in everyday life in Italy, at work, at University, or returning home with a solid background in the Italian language.

We offer a variety of courses, more or less intensive, with a wide range of durations, both in the morning and in the afternoon-evening.
